

# The Disaster Proof Hardware Product Line

+ **DRS** Data Recovery Service

## ioSafe SERVER 5

A fire- and waterproof, cloud-ready server for SMBs and remote/branch offices that provides instant, internet-independent protection for on-premises data to significantly improve post-disaster recovery times. ioSafe Server 5 secures and protects data from natural and man-made disasters to deliver enterprise-class business continuity on a SMB budget.

### Key Features

- Fireproof/waterproof
- Protects data from the moment it's created
- Near-zero recovery point and objective times (RPO/RTO)
- Theft and tamper protection
- Capacities up to 60TB

### Target Markets

- SMB
- Enterprise
- ROBO
- Surveillance

### Business Opportunities

- DR in a box for SMBs and ROBOs
- Replace standard Windows and Linux servers
- Enhance client's RPO/RTO
- Build a BDR appliance

## ioSafe 1517 NAS RAID

The ioSafe 1517 is a fire- and waterproof 5-bay cloud-enabled NAS, engineered to protect business-critical data, enhance recovery times and deliver optimal reliability. Powered by Synology's award-winning DiskStation Manager operating system, the 1517 NAS includes easy-to-use apps for collaboration, file syncing and sharing, video surveillance and more.

### Key Features

- Fireproof/Waterproof
- 5-Bay, up to 180TB of Storage
- High Availability / Automatic Failover
- Four LAN Ports w/ Link Aggregation
- 2 GB DDR3L system memory
- Hardware Encryption Engine
- DRS - up to \$5,000 per TB

### Target Markets

- Enterprise
- SMB's
- Creative Pros
- Branch Offices / Remote Offices

### Business Opportunities

- HIPAA/Medical Data Storage
- Collaborative File Sharing
- DR for Multiple office locations
- SAN/Tier-2 Storage
- Physical & Virtual Backup
- Fast Local Backup, Archive & DR
- NVR Surveillance

## ioSafe 218 NAS RAID

The ioSafe 218 is fireproof and waterproof 2-bay NAS, designed to deliver optimal reliability while protecting data from natural and man-made disasters. Cloud-enabled and powered by Synology's multiple award-winning DiskStation Manager operating system, the 218 NAS includes apps for remote access, collaboration, file syncing and sharing, video surveillance, photo management and more.

### Key Features

- Fireproof/Waterproof
- 2-Bay, up to 24TB of Storage
- Fast Local Backup, Archive & DR
- Mobile Apps
- NVR Surveillance
- Hardware Encryption Engine
- DRS - up to \$5,000 per TB

### Target Markets

- SMB's
- Creative Pros
- Branch Offices / Remote Offices

### Business Opportunities

- HIPAA Compliance/Medical Data Storage
- Affordable file server replacement
- DR in a Box for Small Businesses
- Collaborative File Sharing
- Private Cloud Enabled Physical & Virtual Backup

## ioSafe SoloPRO

The ioSafe SoloPRO is fireproof and waterproof external hard drive engineered to keep data safe during fires and floods and protect it from theft. Designed for optimal reliability, the SoloPRO provides business-class compatibility and can be used with both Windows and Linux servers and Windows, Mac and Linux desktop operating systems.

### Key Features

- Fireproof/Waterproof
- Up to 6TB
- Windows Server, Linux, PC & Mac Compatible
- Fast Local Backup, Archive & DR
- DRS - up to \$5,000 per TB

### Target Markets

- SMB's
- Creative Pros
- Mom & Pop Businesses
- Branch Offices / Remote Offices

### Business Opportunities

- HIPAA Compliance/Medical Data Storage
- Direct Attached to Existing Server for instant DR plan
- DR in a Box for Small Businesses
- Low TCO for DR/BC

## ioSafe Rugged Portable (SSD)

With military-grade specifications, the Rugged Portable SSD is designed to be used in the most extreme environments. Whether photographing wildlife in the arctic, working in the oilfields or simply commuting to work, the Rugged Portable SSD will keep data safe no matter what.

### Key Features

- Crush Protection
- Shock & Drop Protection
- Waterproof / AltSafe / EnviroSafe
- Fast, SuperSpeed USB 3.0
- Military Spec. Rugged Hard Drive
- DRS - up to \$5,000 per TB

### Target Markets

- Military / Defense
- Harsh Environments
- Energy
- Remote Area Backup
- Creative Pros
- On the go travelers

### Business Opportunities

- Ruggedized Backup for Harsh / Remote Environments
- Creative Pros / Videography / Photography Travel
- Military Spec. Data Storage Requirements
- Protection from Harsh Conditions

1 - For peripheral device connections only 2 - For expansion chassis connections only 3 - Backward compatible with USB 2.0

## DRS Data Recovery Service

The ioSafe Data Recovery Service (DRS Basic) provides a no questions asked DRS. For any loss, no matter the reason. Whether you're a victim of a drive failure or your child throws your drive in the family swimming pool – we've got you covered. With the ioSafe DRS Basic you get to enjoy the peace of mind that comes from knowing your data is protected by the best DRS in the industry.

- DRS for any reason. No deductible for initial
- Up to \$2500 included for forensic data recovery if required
- Up to \$5000 per TB included for DRS Pro
- Global, mail-in repair coverage with free shipping for DRS events
- Direct access to ioSafe's experts – one point of contact
- Replacement hardware pre-loaded with recovered data
- Extend No-Hassle Warranty too.
